DETAILED ACTION

Drawings

1. The drawings were received on 28JUN04. These drawings are acceptable.
2. New corrected drawings are required in this application because the drawings filed are informal. Although the details are properly shown, the connection points of the damper stiffener extension (100) is difficult to observe, especially in Figures 1, 4, & 6. This objection was presented in the Office action filed 03MAY04, but no mention (argument) of the informal drawings are found in the Applicant's remarks.
3. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

Allowable Subject Matter

4. Claims 2-7 & 12-23 are allowed.
5. The following is an examiner's statement of reasons for allowance: the prior art does not show or make obvious Applicant's specific body member type.
6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
